c/o Merrill Beyeler
4724 Lemhi Back Rd
Leadore ID 83464

Dear Merrill,

The following letter will document your meeting with Ingrid Drieling, Kristine Tyler and Justin Lind, on May 21st, 2015 will serve as your Annual Operating Instructions (AOI) on the Swan Basin C&H allotment for the 2015 grazing season. The authorized use for the Swan Basin C&H allotment for

↔ \$ \$ cattle with the and brands will be as follows:

Permitted Use

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Swan Basin C&H	Beyeler Ranches LLC	245 c/c	862	6/16-9/30
Swan Basin C&H	Leadore Land Partners	90 yearlings	317	6/16-9/30
Swan Basin C&H	Steve Johnson	100 c/c	352	6/16-9/30

Authorized Use for the 2015 Grazing Season

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Swan Basin C&H	Beyeler Ranches LLC	245 c/c	628	6/16-9/1
Swan Basin C&H	Leadore Land Partners	90 yearlings	231	6/16-9/1
Swan Basin C&H	Steve Johnson	100 c/c	256	6/16-9/1

<u>Allotment</u>	<u>Unit</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Swan Basin C&H	Middle Fork	345 c/c 90 yearlings	200	6/20-7/3
	Lower Grove	345 c/c 90 yearlings	172	7/4-7/15
	Upper Grove	345 c/c 90 yearlings	215	7/16-7/30
	Upper Timber	345 c/c 90 yearlings	200	7/31-8/13
	Lower Timber	345 c/c 90 yearlings	172	8/14-8/25
	T. W. Riparian	345 c/c 90 yearlings	72	8/25-8/29
	Chandler Springs			REST

Only cattle with the    and  brands are authorized to graze on the Swan Basin C&H allotment. The Annual Operating Instructions are made part of your Term Grazing Permit as per Part 2, Item 8(a) of the General Provisions and Regulations. Situations may develop during the grazing season which requires changes to these instructions. Dates listed in the authorized use section may vary based on management needs or range readiness and proper use standards. **If changing unit move dates becomes necessary, or if you cannot comply with some part of these instructions, contact Ingrid Drieling and obtain approval before initiating changes or deviating from these instructions.** Changes can be made based on resource objectives, provided the changes are first approved and documented by an authorized officer. Any extension of use beyond the permitted dates will not be authorized.

Allowable Use

The allowable use standards for the Swan Basin C&H allotment are listed below. It is your responsibility to be aware and recognize utilization and alteration standards. You must move your livestock to the next unit planned, or off the allotment, when those standards have been met. If you need assistance determining utilization levels please contact Ingrid Drieling and she will assist you. **Once cattle are removed from a unit in accordance with use standards and unit scheduling, they are not allowed to return. Please ensure you clean all livestock from your units.** The Forest Service is responsible for monitoring your compliance with allowable use standards. Monitoring typically occurs within two weeks of your unit move date. Please contact your Range Specialists if you would like to join them when monitoring your allotment.

Swan Basin C&H

Key Area Locations	Unit – Creek	Monitoring Attribute	Annual Use Indicator	Key Species	Trigger
MIM M250	Lower Timber Creek Unit Big Timber Creek	Browse use	50%	Willow	45%
		Greenline stubble	4 in.	Hydric spp.	5 in.
		Bank Alteration	20%	N/A	15%
MIM M251	Upper Timber Creek Unit Big Timber Creek	Browse use	50%	Willow	45%
		Greenline stubble	4 in.	Hydric spp.	5 in.
		Bank Alteration	10%	N/A	10%
Upland Sites	All Units	Utilization	Up to 50%	Upland grass species	45%
Riparian Areas	All Units	Utilization by Key Species	50%	Riparian grass species	45%

Biological Assessment and Opinion Requirements

The Biological Opinion for the Swan Basin C&H Allotment laid out the following measures to be implemented to avoid and reduce potential impacts to ESA listed fish. The measures are as follows:

1. A rest rotation grazing system will continue to be used. Resting a Unit each year provides benefits to riparian vegetation.
2. The on date will be varied so that livestock will be placed on the Allotment at range readiness (bluebunch wheatgrass in the first boot stage). This will reduce potential for streambank alteration.
3. Annual use indicators will dictate when livestock are moved between Units or off the Allotment, within the terms of the term grazing permit. Annual use indicators will be monitored by SCNF personnel to help meet long term riparian management objectives (RMOs).
4. Salt and/or mineral blocks will not be placed within one-fourth mile of springs, streams, or riparian habitats.
5. Permittees will use riders to direct livestock away from streams and associated riparian areas at least once every two weeks, reducing potential impacts on designated critical habitat.
 - a. Pastures –Middle Fork, Lower Timber, Upper Timber and Chandler Springs.
6. Fences and water developments have been placed to reduce livestock use on streams and their associated riparian areas. This will continue to reduce impacts on designated critical habitat.
7. The monitoring attribute of browse use will be added to sites that are dominated by woody browse species.

Range Improvements

Range improvements listed in Part 3 of your grazing permit **must** be maintained prior to livestock entering the allotment. Contact your Rangeland Management Specialist to discuss materials and supplies for any improvements that are in need of re-construction.

You were provided with an improvement list and map to document the condition of the Range Improvements on your allotment. Please complete the document and return it to your Rangeland Management Specialist.

The following improvements for the Swan Basin C&H Allotment were discussed in the meeting:

- You would like to improve the distribution of livestock in the uplands of the Upper Timber Creek Unit.
- The range crew needs to GPS the fence location at the reservoir.
- Development of the spring in the Ted Whittaker Riparian Unit to be piped to Chandler Springs.
- Look for water development in Upper Grove to go to Middle Fork

General Management

The grazing fees for 2015 are the base rate of \$1.69 per head month. Payment of your grazing bill is due prior to your earliest turnout date.

The Salmon-Challis Travel Management Record of Decision was signed December 24, 2009. With the issuance of this decision, all roads and trails designated for motor vehicle use map (MVUM). As detailed in 36 CFR 261.13; 36 CFR 212.51a the prohibitions on motor vehicle use will not apply to motor vehicle use that is specifically authorized under a written authorization issued under Federal law or regulation. **Effective March 20th, 2015 the Salmon Challis National Forest requires a Vehicle Use Permit, signed by the District Ranger, for ALL closed roads or off road travel. This must be displayed in windshield for Trucks or carried on ATV's, UTV's and Motorcycles. Contact your Rangeland Management Specialist to obtain a Vehicle Use Permit for any closed road or off-road travel.** Motor vehicle use maps may be obtained at any Salmon-Challis Ranger District.

Approval of requests for personal convenience and resource protection nonuse is not automatic and the authorized officer should discuss the reasons for the nonuse request with the permittee. Requests for non-use must be done in writing and the approval of a request for non-use must be in writing by the authorized officer. Full or partial permittee convenience nonuse may be approved by the authorized officer for no more than three consecutive years and not more than four years in any ten year period.

Dead livestock must be moved at least 100 yards from water, roads, and trails.

Place salt at least ¼ mile from water sources and in areas lightly grazed to encourage an even distribution of utilization on the range.

Invasive weeds are becoming a serious threat to the welfare of our rangelands. Your assistance is needed to identify new outbreaks of weed populations and to prevent the establishment of weeds on the forest. We have implemented a Noxious Weed Free Hay order on our Forest. This will require any hay that is brought onto the National Forest to be certified free from noxious weeds.

If you spot a wild fire, report it immediately to the Central Idaho Interagency Dispatch Center in Salmon, ID at (208) 756-5157.

If you have any questions regarding any of the allotments for which you have permits, please call Ingrid Drieling at (208) 768-2516 or myself at (208) 756-5247.

Sincerely,

/s/ Jay Winfield
